Poll: Where do you get information on zombies?

Here are the results of a poll on *K_Line Christian Online*, through September 15, 2010.

How do you get most of your information about zombies? (Multiple choices are allowed, so results total more than 100%)

- The iNternet: websites such as this or emails (88%)
- Word of mouth: Friends, family members, coworkers, police officers, etc (71%)
- TV News (59%)
- Newspapers, magazines (47%)
- School or trade groups (47%)
- Word of mouth: from zombies themselves (41%)[1. Although the survey question is unclear, we assume that *"word of mouth"* from a zombie also includes actual zombie bites.]
- All of the other choices listed (12%)

You too can participate in *K_Line Christian Online* surveys. There is a survey on the right column of every page. Or go to the Survey / Polls category.
